Management

Mahavir Industries is one of the leading independent and globally active pigment manufacturers located in one of the biggest chemical zones of India. Over the years we have built upon the fundamental belief that exemplary character, a close working relationship with clients and our commitment to quality has led us to become largest manufacturers of organic, inorganic and high-performance pigments exporting to almost 40 countries.

Our unmatched capabilities have made us an important supplier for various industries in a very short time. With constant innovations in pigments, improved light fastness, heat stability, high dispersion and resistance to various chemicals and solvents, we have achieved a distinction from our various clients worldwide.

Our roots originate in the 1979's and today Mahavir Group has transformed into a Global Pigment Industry which provides High Performance, Phthalocyanine, Azo, Toners, Inorganic pigments and Pigment Dispersions under the brand 'MAHAFAST' and 'MAHAFIX'. Our products are used to manufacture some of the leading global brands of inks, coatings, plastics, textiles and masterbatch.

Mahavir Group is known for its quality, ethical work practices and client's confidence.

Regulatory Compliance

- ISO 9001:2008
- ISO 14001:2014
- GOTS Certification
- AZO Free Certification
- Halal Certification
- RoHS Certification
- Health Certification

Inventive spirit and the will to succeed are an integral part of our culture. They are more than that, however : They are also the basis for **Mahavir Industries** continuing success. Our customers all over the world value our company's innovative strength and the high quality of our products. Every day, this trust strengthens our determination to become even better. As a family-owned company, this trust also means great responsibility for us. Responsibility towards our customers, our suppliers, and our employees. This is especially true in a world that seems to be turning faster and faster. In taking on new challenges, we recognize the opportunities they present and plan our long-term strategy accordingly. We continually strive to further expand our leading role as a globally-active industrial company. Our employees, who make a decisive contribution to the company's success with their knowledge, creativity, and reliability, and who are committed to using their inventive spirit to fulfill our customers' requirements in a targeted manner worldwide, are the driving force behind this. That is how we move the world – together.

Satisfied customers - are our goal. We work to achieve customer satisfaction by means of worldwide customer proximity, a promise to deliver quality, innovation and enthusiasm every day.

- Mr. Naresh Kothari

Taking new paths to develop ideas and think beyond barriers is just as important now as it was when the company was first established.

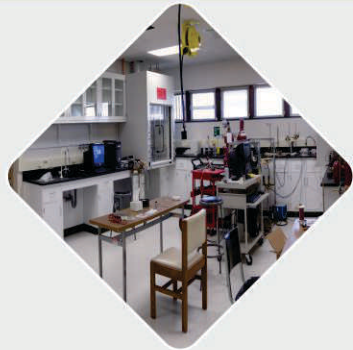

- Mr. Jinay Kothari

Applications

Quality Control

Our product range comprises of world class Organic, Inorganic and High-performance Pigments for the Printing Inks, Paints, Plastics, Masterbatch, EVA and other Specialized Industries. With excellent quality and high standard of workmanship, continuous efforts are made to develop the produce to suit the specific customer requirements on various applications and parameters. We are proud to be associated with this industries and offer quality products to our customers.

Facility

In consent to International Standards, R&D laboratories offer excellent facilities and are fully equipped with modern equipment and analytical instruments which helps to diversify the product range and develops more color shades and high quality pigments. We continuously upgrade our products to meet the new challenges in the modern high tech world. Our laboratory is well equipped with indigenous, modern equipments like Two Roll Mill, Three Roll Mill, Vibro Shaker, Injection Moulders, EVA testing, Muller Lev along with UV Spectrometer running under close observation by trained technocrats.

Packaging and Logistics

Packaging of our products is given prime importance by us, as effective packaging ensures safe delivery of products to the clients. Our products are available in many packaging options as per customer requirement. Our packaging material is of the finest quality, which is safe for transportation on land, sea or air. Also different quantities of packing ranging from 10 kg to 25 kg are available as per customer requirement. We also adhere to other customer requirements and are flexible with venturing into new packaging options.

Packaging : Carbon Box, HDPE Paper Bag, Jumbo Box Packaging, Jumbo Bag Packaging.
